DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05 May 2008 has been entered.

Response to Amendment

2. Applicant's amendment filed 05 May 2008 amends claims 1, 7, 15, and 17. Applicant's amendment has been fully considered and entered.

Response to Arguments

3. Applicant's arguments with respect to the Shi reference in view of the claim amendments have been fully considered and are persuasive. The previous rejections have been withdrawn.

Claim Objections

4. Claim 7 is objected to because of the following informalities: Delete "in" on line 7. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claim 15 recites, "wherein the element of said web page is eliminated from use by another Web site than that of the web server," which renders the claims indefinite because it is unclear how the element is eliminated from use by another web site.

8. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: how the element of the web page is eliminated from use by another web site. The specification (Page 11, lines 1-11) details several unclaimed steps that would be essential for performing the claimed elimination.

9. Claims 16-17 are rejected based upon their dependence on claim 15.

Allowable Subject Matter

10. Claims 1-14, 18-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The claims are generally concerned with determining whether a client request for a web page element will be granted based upon whether the client had previously requested access to the actual web page that includes requested web page element. Access to the requested web page element will not be granted unless an indication of a previous request for the web page exists.

The prior art does not disclose or make obvious these claimed features.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
